Corruption remains a threat to development in Africa. It poses a risk to achieving the High 5s. It negatively affects the Bank’s reputation and can potentially erode the trust of partners and shareholders. It can impede resource mobilization efforts and can hinder the Bank’s efforts to stimulate sustainable economic development and social progress in Africa.
Facilitating Development in Africa

- PIAC promotes integrity in the use of AfDB’s resources by ensuring they are used for their intended purposes through both preventive and investigative measures.

- PIAC works to prevent, detect, and deter coercion, collusion, corruption, fraud, and obstruction in operations financed by the Bank Group.
