DE DEVELOPPEMENT

OUTLINE

1. The Transport sector at a glance
2. AfDB's engagement in the Transport sector
3. Selected projects and activities
4. Business Opportunities / Pipeline

GRUPE DE LA BANQUE AFRICAINE
DE DEVELOPPEMENT

1. The Transport sector at a glance

Key transport related issues

- There is need to narrow Africa's huge infrastructure gap;
- Given the many small African economies, regional integration is essential for the continent;
- Landlocked countries need to be more linked to international markets;
- Transport has to support intra-African trade;
- The inadequate state of transport infrastructure and systems in Africa has hampered socio-economic development of the continent;

GRUPE DE LA BANQUE AFRICAINE
DE DEVELOPPEMENT

Key transport related issues

- Poor national and rural accessibility worsens poverty situation in Africa;
- The performance of the transport sector is also largely dependent on sector governance;
- Increased Urbanization requiring more efficient mobility;
- Project preparation and Implementation is still hampered by institutional capacity issues;
- Sustainability of investments in the sector remains a challenge.

Sector priority areas

- Reinforcing Technical Assistance to support RMCs develop coherent policies and strategies;
- Leading on the development of infrastructure Asset Management;
- Capacity building of the domestic construction industry;
- Providing Advisory Support to Develop infrastructure Markets & Private Sector Participation;
- Developing Innovative Infrastructure financial structuring and regulation.
