ADF-12 Resource Allocation

Benoit Chervalier
Head, Resource Mobilization and Allocation Unit
This presentation

1. Resource allocation and utilization under ADF-12
2. Perspectives for FSF Pillar II
3. Emerging Issues for ADF-13
Allocation of ADF-12 resources has maintained and even strengthened its performance focus.
And resources are used in a timely manner

% of Total PBA Resources
**FSF Pillar II**

- Having resources ready for arrears clearance worked well in ADF-11
- Sudan and/or Zimbabwe may qualify for arrears clearance by the end of ADF-12
- The Bank should remain ready to provide arrears clearance as and when countries meet the conditions. Thus, Management proposes:
  
  1. **Retaining** the UA 362 MM of FSF Pillar II throughout ADF-12
  2. **Rolling over** in the same window any unused amount at the end of the cycle for ADF-13
Emerging Issues for ADF-13: RO Envelope

- Increase share of resources to **align with LTS**
  - Reduce leverage to increase country contribution
  - Increase total share of resources for regional operations

- Fine-tune the **incentive mechanism** introduced under ADF-11
  - Ensure an **equitable access** to the RO envelope for all ADF countries
A more robust allocation system

Internal and external consultations and 2012 Bank clients’ survey

Countries’ performance should continue to be the bedrock of the system

The current PBA system is due for a review
PBA System: Areas for potential improvement

- Stronger alignment with ADF operational priorities
- Better capturing regional development constraints
- Rewarding outcome based performance
- Improving the resource allocation for Fragile States
- Ensuring a meaningful engagement
Thank you.
